

The Right Brain Vision Workshops will help you identify and achieve what matters most to you in each area of your life. By using a book instead of a vision board you can progressively add images and journaling that represent your desires, dreams and goals.

In this workshop you will connect with the creative side of your brain. Using paints, feathers, sequins etc you will create a vision book that will identify the goals you wish to achieve for the coming year.

Many plan their business goals, but what about the bigger picture, your life goals and dreams.

Stop struggling & putting it off and start planning. The Vision Booking Workshop is about reconnecting YOU to what You Really Want in Your Life.

INCLUDED IN WORKSHOP

Tea, Coffee, Lunch, Vision Book, Small Canvas & everything you need to get started.

COST

\$125 per person (50% deposit required on booking)
